To The Woodland Trust Scotland,

Letter of support for Little France Diamond Wood

-  As a member of the local community around Little France Diamond Wood, I am keen to see our areas of greenspace protected, enhanced and properly maintained.
-  I feel it is genuinely important to be a part of this improvement in the area and am pleased the Woodland Trust Scotland would like us to be involved in the project from the start.
-  A new area of native woodland in the Craigmillar area will benefit the local community by giving us an enjoyable place to walk with our families and children and for future generations.
-  I am pleased that The Woodland Trust Scotland will be regenerating and maintaining Little France Diamond Wood and would like to show my support for the project with this letter.
-  I am happy for this letter to be used in support of the fundraising campaign for Little France Diamond Wood.
